Doings In Congress

By Congressman Wm. Lemke

I address this release to the fathers, mothers and young people whose sons and brothers will again have to do the fighting if we are blundered into World War III. History repeats itself, so does stupidity. Our subcommittee on Public Lands that investigated the Pacific islands under our control got an eye opener of the waste and the stupidity of our nation in dealing with these islands and foreign nations.

In Tokyo the committee was shown that we had already lost the cold war. There is no longer any excuse for closing our eyes to realities. The egg from which World War II was hatched was laid at Versailles. The egg for World War III was laid at Teheran, Yalta and Potsdam, when Alger Hiss and his friends who still occupy positions of trust advised our Presidents. We hope this egg will not hatch, although it is being incubated by the State Department.

The World War II egg was hatched when Britain continued to appease Hitler and Stalin when they were cronies. World War III egg is on its way of being hatched when the State Department wishes to surrender Formosa to the Chinese communists. This in spite of the opposition of every General and every Admiral who are charged with the defense of the Pacific.

These, without exception, have advised that Formosa must never be permitted to fall into the hands of an enemy. They have suggested that Formosa, since it is part of Japan, be put under control of General MacArthur until the peace treaty is signed. They have advised the State Department that Formosa is the key to our entire Pacific defense.

It takes two nations to make peace but one can make war. You cannot make peace with a man eating tiger by surrendering individuals to be devoured. Sooner or later we will have to take a firm stand against the Soviet Union—the nation eating tiger.

The State Department, when against the advice of every General and Admiral in the Pacific, suggests that we will not defend Formosa is inviting the communists to take it. Such a disastrous result, I am sure, will not be countenanced by the American people. Unfortunately those who may bring about World War III will not be the ones who will do the fighting. This stupid policy may cost the lives of millions upon millions. It is time for the American people to wake up and speak in no uncertain terms to the State Department and the President.

The President's apparent invitation, upon the request of the State Department, to the commies to take Formosa without consulting Congress and against the vigorous protests of General MacArthur and his staff, and Admiral Radford and his staff I am not quoting the General nor the Admiral. I am giving the public the actual facts, facts that I got from many sources while on an inspection tour of our Pacific Island possessions. We got an eye opener and you will hear more from other members.

I am aware that Dean Acheson and others wish to put a padlock upon the brain cells of generals and admirals. They want to seal their lips so that their blunders may remain uncovered. This even when our national defense and our nation's life is at stake.

I wish to impress upon the generals and admirals wherever they are stationed that it is

CHURCH POSTERS IN ZIONIST RULED COUNTRIES

A mockery of the "Holy Communion" as portrayed by an unbeliever. This phantasy has replaced the real "Holy Communion" in many churches in communist-controlled countries and has been forced on once Christian nations by their atheistic leaders. This can and will happen in America unless the forces of evil that plan the destruction of all religion are completely debunked.

AMERICA OUR COUNTRY

By Helen P. Lasell

Dedicated to Our American
Way of Life

America—Our country, yours and mine,
The land of Liberty and of the free,
Where the oppressed seek peace sublime,
In her vast space, from sea to sea.

America—Our country, yours and mine,
May we keep her always free . . .
Where peace, plenty and prosperity twine
Forever . . . in this land of Liberty.

America—Our country, yours and mine,
May we dedicate ourselves, each one,
To protect her with vigilance divine,
Against inroads of destruction now begun.

America—Our country, yours and mine,
We cannot, live half slave - half free,
Let us not "cast our pearls before the swine,"
In bondage—our people must not be!

America—Our country, yours and mine,
Let Freedom ever our watchword be,
In our hearts—forever enshrine
The motto—"Keep America Free".

America—Our country, yours and mine,
Let us constantly her portals guard,
And pray—the Grace of God will shine
On her forever—with Freedom unmarred.

Christian Good Will

It has often been said that the Church as such should keep clear of politics. Indeed, from the Christian point of view this argument is irrefutable, but it is equally irrefutable that the Church cannot remain passive when the principles which it claims to uphold are perverted and violated. This applies to common crime as well as to the realm of morals, economics or politics.

It is quite right that the Church as such should not side either with Conservative, Liberal or Socialist policies, but it is bound to denounce every act by any political body or individual which is a distortion of or opposed to the teaching of Christ.

Thus, when Communists claim that theirs is practical Christianity it is the duty of every defender of the Faith to point out the deception and say that whilst Christ advocated the giving by those who have, to those who have not. He never advocated the taking from those who have to give to those who have not. For indeed. He asked who should judge his neighbour or in other words who should have the right to decide when and what to take from him. To such and other misrepresentations by political bodies for their own aims the Church should not remain indifferent and shirk its responsibilities by advancing non-interference in politics.

An example to the point is Mr. Aneurin Bevan's unsavoury utterance against the Tories. When someone expressed an opinion that his opponent is lower than vermin the implication is that he should be treated as such, and it ceases to remain a political issue outside the notice of the Church. A politician who seeks to gain power by inciting one section of the people against another is breaking the Divine law and urging brother to raise a hand against brother. This is a serious crime and from every pulpit in the Realm there should be pointed an accusing finger against the man who violates Christianity. Let the Socialist Party find a Christian man to put across its ideals of the structure of human society; if it fails to do so it is un-Christian and should not be acceptable to Christians. This has to be made clear by the Church.

Instead, we read of Ecclesiastical Conferences to Commemorate the anniversary of the Common Prayer Book, we see pictures of smiling Bishops sharing a joke. All very commendable and harmless, but utterly uninspiring and bereft of leadership in these days of confusion and peril. The reason seems to lie in the fact that though as a body the Church claims to be unpolitical the dignitaries of the Church have lost the thread of Christianity in the tangle of ideologies. The late Dr. Temple pronounced himself as favouring Socialism whilst other Church dignitaries clamoured for the extermination of the German race and un-Christian vengeance.

With the exception of a few earnest Christian men who try to guide their flock along the Christian path, pastors give little guidance from the pulpit and the people are left to grope for themselves and come to grips with the vital issues which are thrust upon them from all sides. Is it to be wondered at that Churches are often empty of people who seek an answer to their problems find but a stale repetition of "we are all good fellows sort of feeling" with lessons from the Bible which puzzle them still more. For when they hear the exploits of the Jews, who, with the alleged Divine approval, commit the most monstrous crimes against the Christian laws and they compare them with the misfortunes of the present day, they begin to feel that something has gone wrong somewhere. Atom Bombs Away

by Merwin K. Hart, President
National Economic Council, Inc.
(Continued from No. 105 issue)

WASHINGTON HAS PLAYED RUSSIA'S GAME

For 16 years the American Administration has played Russia's game. It is playing it today, while Russia is arming to take America over.

All this would be obvious to more Americans if propaganda had not told them that foreign policy was a matter for experts. Few American newspapers have told the real story, or the whole story, of the tragedy that is being enacted. The misnamed and mischievous "Bipartisan Foreign Policy" is

but one of the devices inspired by the men playing with Moscow.

It is a fact that, aside from the National Economic Council, there is hardly a nation-wide organization in the United States, that, if it concerns itself with foreign policy at all, is not, consciously or unconsciously furthering Communist purposes.

Thus the Foreign Policy Association, under the leadership of Russian born Vera Michaelis Dean, almost always slants its attitudes towards interpretations and trends favorable to Moscow. There is no foreign policy association that holds America's interest first.

The League of Women Voters, under the leadership of Anna Lord Strauss, is invariably found in favor of New Deal Socialist measures, which, if not inspired by Soviet Russia, are in general pushed by the same forces. There is no league of women voters that considers America first.

As indicating that many members of the League are deceived by its alleged purposes, a pamphlet entitled "Packaged Thinking for Women" by Lucile Carden Crain published a year ago laid bare some of the activities of the League of Women Voters; and shortly afterwards the Allegheny County (Pa.) Chapter of the League of Women Voters withdrew from the parent organization.

The General Federation of Women's Clubs, claiming over 5,000,000 members in 17,000 clubs (and 3,000,000 associate members "abroad"—whatever that means) is another lobbying organization, though it is not registered as such. Robert Froman, writing in the magazine *This Week* for August 21, 1949, said with reference to the Federation's campaign to put the Marshall Plan proposal through Congress:

"Soon hundreds of Congressmen found themselves wading neck deep in great drifts of perfumed notes, exhortatory telegrams and lengthy petitions from their feminine constituents. The message from each: Vote for the Marshall Plan—or else. When they did and the plan became the multi-billion dollar European Recovery Program, observers gave a large share of the credit to the Federation's campaign."

Mrs. J. L. Buck, President of the Federation is acting on her statement that "If we want peace we simply have got to take an international point of view." She of course ignores the fact that until the American Government adopted the "international point of view," we had uninterrupted peace. Whether she knows it or not she seems clearly to have become a tool of the International Marxists. And she is presuming to speak for 5,000,000 women, not 5 per cent of whom really know what's going on.

The Federal Council of Churches, maintaining a powerful lobby in Washington, is rarely in opposition to socialist measures that lead to Communism. John T. Flynn, in his latest book, "The Road Ahead" has made this clear. But, fortunately, there is in this field the American Council of Christian Churches, an organization which places America first.

Let's remember the commissioning of known Communists in both U.S. Army and Navy, while many opposed to Communism were refused commissions. Let's remember the betrayal by Roosevelt of China and Poland and all the countries east of the Iron Curtain; the policy of "unconditional surrender," the Nuremberg and Dachau trials, the "dismantling" of plants in Germany.

SEE WHAT WASHINGTON IS DOING TODAY

And then let's go on and take a look at what the Administration is doing today.

1. It is giving a billion a year of American savings to the Socialist Labor Government of

Britain, which derives no little support from British Communists.

2. Partly because of Stalin's influence, partly because it does not want to offend British and French Socialists, the Administration continues to refuse to return an ambassador to Spain. America did recognize the Franco Government of Spain—on April 1, 1939. Roosevelt's Ambassador to Spain, Dr. Hayes, in his book "Wartime Mission In Spain," records the great help rendered the Allies by the Franco Government. Churchill paid his tribute likewise, in Parliament on May 24, 1944. Roosevelt sent Franco a letter in the Fall of 1942 telling him, in a brotherly way, that Spain had nothing to fear from the united nations. Modern Spain has never interfered in the affairs of other nations. She has never defaulted on a foreign debt. Every vital interest of America demands that we resume the closest relations with Spain. Yet we do not, because Marxists in the Washington Administration will not permit it. Soviet Russia, which insults us at every turn, as in the Ward case, is still dictating American policy on Spain.

Spain is the only country in the world that has defeated Soviet Russia in war. Besides, Stalin wants Spain for a base for atomic operations—and will get it, if the American attitude is not changed in time. And Spain can hold out for perhaps a year more.

3. The Administration has permitted dismantling of German war plants to continue—again at the insistence of the Labor Government of British and French Socialists. True, an agreement signed November 24, 1949, between Adenauer, head of the West German Republic, and the three High Commissioners of the United States, France and Britain, provides, in effect, that dismantling shall cease. But it is largely meaningless because most of the important dismantling has already taken place. We warned in Letter 223 (September 15) from Frankfurt that nine vital plants, recommended by the Humphrey Committee (of American industrialists) not to be dismantled, would be completely dismantled in a brief time. Indeed trustworthy Germans believed orders had been received from British and American sources to speed up dismantling, before a change of policy took place. Now that the change has taken place the mischief has largely been done.

The new Eastern German Republic is making a strong bid to Western Germany to join her in a united Germany—and it is by no means settled that she won't succeed.

Here, as in every other foreign field, we are following not American interests, but the ambitions of socialist politicians of other countries. And we American citizens are putting up the money!

4. The Administration is preparing to push through Congress ratification of the International Trade Organization (ITO) agreement and the Right to Organize Agreement of the International Labor Organization (ILO). The former would remove the control of both foreign and domestic trade from the Congress and place it under an international committee in which the U.S. would have but a single vote. The latter would remove the control of all relations between employers and employees from the Congress and place them under an international committee in which the U.S. would likewise have but a single vote.

Ratification of these agreements would alone constitute an abdication of a large part of all the power of the Congress of the United States. They would make more likely the speedy abdication of all the power of the Congress.

5. Lastly, in the foreign field, we persist in the idealistic but cockeyed idea that we Americans should build up the power of the United Nations; although the head of U.N., Mr. Lie, a former radical Norwegian labor leader, was nominated by Soviet Russia; and although U.N., allegedly designed to prevent war, actually stirred up the Palestine war, at the instance of the Zionists or Communists, or both.

By "winning" the headquarters of U.N., for the United States, we have set up on Manhattan Island what is at best a useless debating society, but which will far more likely prove to be one of the best tools of the plotting Communists in Moscow.

Perhaps the worst folly of all is the persistence of the Administration in seeking to attain any kind of an agreement with Soviet Russia respecting the atom bomb—as though there were the slightest reason to believe Soviet Russia would observe any agreement one moment longer than served her own purpose.

Beyond all these things the Administration is taking steps to extend huge aid (Marshall Plan style) to Southeast Asia, regardless of the fact that with continuance of present American

article entitled "John Bull Wants to Know," had the following apt passage:

"In our country there are no doubt many sincere and honest men in the Government, but one is brought to ask if they are all so single minded and trustworthy. The peril to the freedom and the safety of our people, and indeed, of the whole world, is such that one is found to brush aside cautious innuendoes and ask outright are the Jews and the Communists in the House of Commons men of goodwill? One wonders why there are so many Jews in Parliament. God forbid that we should be accused of anti-Semitism, but we are, after all, nominally a Christian country and King George VI. is still Defender of the Faith. Are the Jews in Parliament converts to Christianity, are they Orthodox Jews, are they agnostics or atheists, do they own allegiance to, or are they entangled in any way with, the highly suspect schemes of International Jewry?"

The above quotation is not a political issue but sums up the reflections of the people who are threatened in their very existence and are searching around both for the source of their danger and for the right way out of it. The issue is not a political one but a Christian one. It was rightly summed up by Mr. Churchill in his recent speech to the Conservative Party. He said:

"The driving force of Socialism is class hatred and envy. As I told the House of Commons a fortnight ago, the American Constitution declares, 'All men are born equal.' The British Socialist Party add, 'All men must be kept equal.'"

The *Daily Graphic* of 21 October published a letter by a woman who attended a B.B.C. Children's Service. Her conclusions were as follows:

"I was invited recently to attend a broadcast Children's Service in a school, and I went with considerable interest and pleasure. I came away distressed and unhappy, for it proved to be, to all intents and purposes, Socialist propaganda and an opportunity for instilling class hatred."

She proceeded by giving full details of the service, which leaves no doubt as to the Socialist bias introduction into the teaching of religion to children.

Whilst no Christian can imagine Our Lord preaching a political sermon, no Christian can equally imagine him remaining passive under the plea of avoiding politics if He learnt that the Communist rulers of Czechoslovakia had made a list of 20,000 people for deportation "whose return was not desired" (*Daily Graphic* Inside information) and that Great Britain had voted with Soviet Russia for the admission of Czechoslovakia (under Soviet domination) to the Security Council of Nations.

"Let us be friends" and "Can't we be friends?" exclaim our Socialist leaders, turning pitifully to the Bolshevik murderers who for over thirty years have maintained power through bloodshed and terror. This is well known to all our leaders, both Christian and otherwise, and when they try to compromise with the Devil it is because they have lost the Light or are deliberately shutting it out and are trying to dazzle others who might detect their intentions. It is the duty of the Christian Church to give guidance.

Political parties can be likened to tenants of a house who have been entrusted to paint and decorate according to their taste and ability. If the owners do not like it they can put in other tenants to do the work. But if the tenants, regardless of their obligations, smuggle in a hammer and sickle and start undermining the foundations of the house, they cease to be accredited tenants and become destroyers of a property which is not theirs to destroy.

The majority of people are still Christian and because they fail to see anyone who would defend their Faith and their principles they drift from one party to another and mistrust everyone. There is here a chance for real Christian leadership, which in these present days is so painfully lacking.

policy, all Southeast Asia will be seized by Soviet Russia.

Then the Administration, under so-called Point Four of Truman's socialistic program of last January, proposes appropriations for a kind of TVA in Palestine. Much could be said on this—chiefly that it is entirely likely (assuming the present Administration plans continue) that Palestine will become an important part of the Soviet Union. This would mean still more gifts to Soviet Russia—gifts financed by further increasing our own public debt. We would further deplete our own natural resources in order to develop the natural resources of Israel—a country closely connected with the plan for world domination.

AND CONSIDER THE DOMESTIC FIELD

In the domestic field Mr. Truman, regardless of the effect on the solvency of the United States and on the continued independence of citizens, is pushing such measures as Federal Aid to Education, Socialized Medicine, the FEPC, the Brannan Plan to regiment agriculture, additional TVA's, the repeal of the Taft-Hartley Law and other measures.

TWO DANGERS

So the American people, after a century and a half of life under the most successful form of self-Government ever devised, is threatened with two dangers, one without and one within.

The danger from without is that Soviet Russia, now commanding the manpower of nearly a billion human beings and the brainpower of many German scientists, is calmly and deliberately taking steps so that by 1952 or 1953 she can dictate terms to the rest of the world. And so far the Administration, constantly under the advice and counsel of internationalists, and in violation of every American vital interest, acts as if unaware that anything is going on; and is taking no adequate steps to meet it.

And on the domestic side, at the instance of these same internationalists, our economy is being pushed into a kind and degree of Socialism that will mean financial and moral bankruptcy to the American people.

It would be hard to say which of these two dangers is greater. Either one could lead the American people into slavery. The two roads lead to the same destination. Doubtless the same influences are responsible for both.

Either the military triumph of Russia over the United States, or the complete socialization of the United States would mean the destruction of Christianity or the driving of it underground to such an extent that God alone knows when it would emerge as a free religion.

Palestine, mentioned above, by connivance and plotting of the "United Nations," has been invaded by Zionist forces, through funds contributed by American Zionists and other Americans intimidated into giving. Several hundred thousand Arabs have been ruthlessly driven out of homes they and their ancestors have occupied for 700 years, and many are today dying of starvation and exposure.

We have talked with Mr. Yusif El-Bandak, son of the Mayor of Bethlehem. He tells us 130,000 Christians (many of them descendants of the First Crusaders), in and about Bethlehem, birthplace of Jesus Christ, have so far resisted four Zionist attacks, but that they cannot hold out indefinitely. He says that if this community falls, Christianity will be blotted out in the Holy Land.

Meanwhile the United Jewish Appeal, which has financed much of the Zionist invasion, announces it will seek 250 million in the United States in 1950. There is little doubt some of this would be used to help wipe out what remains of Christianity in Palestine.

American Christians, who are solicited to contribute, may well remember this.

Let them remember, too, that many prominent Communists and communist sympathizers, are also Zionists.

And let them remember that if Christian America is to resist Soviet Russia's preparations for war, they must preserve the religion of Jesus Christ in America.

Brotherhood Week

"Who is a liar? He who denieth Jesus is the Christ. Who so denieth the Son, the same hath not the Father . . . If any man come to you and bring not this doctrine, receive him not unto the house."

—Saint Paul (2 Corinthians, VI:14)

In recent years much has been done through the instigation of the National Conference of Christians and Jews to promote "civic harmony" and "brotherhood." Christians are urged to be tolerant.

What people should now come to see is that this program of interfaith is strictly a Jewish doctrine. Not content with the greatest liberty America has given them, to practice their religious beliefs in peace and quietness, the Jews resort to extremes in their interference with the religions of others in a bold determination to banish from the public scene every sign of the Christian character of the United States.

This is not merely intolerable; it is a pre-conceived plot to destroy all that is not Jewish and substitute Talmudic teachings for faith in the Son of God, Jesus Christ, who rose from the dead, fulfilling His promise of Life Eternal.

The many attacks upon Christianity prove this Zionist plan.

In Chelsea, Massachusetts, this year a Mrs. Abraham Wolper petitioned the school authorities to ban the singing of all Christmas carols, saying that children from Jewish homes "dread this season."

A Rabbi of Media, Pennsylvania, called a meeting to demand that all religious instruction and Christmas carolling be prohibited in Pennsylvania schools. In Linden, New Jersey, Christian parents attending a public school's Christmas program were astounded when they heard Jewish songs predominating the evening's festivities. The same thing happened in Irvington and Maplewood, New Jersey.

The Los Angeles School Board received a call from Jews who demanded the outlawing of Christmas carols, as well as the abandonment of all music books containing Christian hymns. In this instance, the School Board denied the plea by a vote of 6 to 1.

Hawthorne, New Jersey, also hit the headlines recently when a Mrs. Henry O. Klein instituted a court suit to have the brief Bible readings banned from New Jersey's public schools.

The foregoing are only samples of the attacks made this Season by Zionist forces, and a review of past years proves that these anti-Christian movements are not new.

In 1947, Isaac Bilderslee, Associate Superintendent of Schools in charge of Brooklyn District 41 and 42 issued an order of restrictions on Christian Christmas observance of the Holy Day in 23 public schools. The Bilderslee statement read: "Christmas carols with reference to the Nativity may not be sung, nor may decorations include symbols of faith. Christmas is a time of rejoicing and expressing good will and should be devoid of religion."

(Editor's note: Good will for whom? Zionists who commercialize? We thought Christmas commemorated the birth of Christ.)

During 1913, officials of public schools in Jackson, Tennessee, were petitioned to prevent the reading of the Bible in public schools, while in 1912 the school principals of Roxbury, Massachusetts, agreed to banish Christmas trees and omit all references to the Holy Day in their school. In 1911 Chicago Jews opposed Bible readings and the singing of hymns, while a year previously recitation of the Lord's Prayer was discontinued in public schools of Bridgeport, Pennsylvania, because of Jewish demands.

So it goes, year after year. The incidents quoted do not begin to represent a complete picture; there are numerous, additional similar protests and court actions—all of which prove that the Jew is the most intolerant individual in the world.

Christian Americans do not interfere with Jewish "rights"—ways and manners. No one prohibits the Jew from keeping his own days, calendar and dietary laws. He is not molested.

How then does the Jew alibi this Jewish persecution of Christians? What are the Christian rights of Christians in these Christian United States?

Tolerance Shrieking Zionists Advocate Use Of Guns

Say YMHA Should Teach Use of Arms in Self-Defense

While unwary Americans are falling into the trap to "love them like brothers," the California "B'nai B'rith Messenger", an official Jewish publication, published the following editorial, under the caption "Self-Defense."

"Because laws cannot be relied upon in cases of anti-Semitic attacks, Jews should be prepared to protect themselves, physically, if necessary, Dr. Solomon Grayzel told the Institute of Judaism, last week. The Institute was held under the auspices of the North Carolina Association of B'nai B'rith at Wildacres, N.C.

"Dr. Grayzel, eminent Jewish historian, pointed out in his talk that Jewish history was proof that laws cannot protect; that existence of laws even creates a condition of helplessness on the part of attacked Jews.

"He went so far in his talk to suggest that Centers and YMHA's be turned into training centers for boxing and even the use of arms in self-defense.

"Of course Dr. Grayzel's statement that laws are ineffective is open to argument. We still believe that laws are necessary to some extent to erect a wall against potential anti-Semitic force in this country. Yet we cannot help but approve his public utterance, in practically what would be an antagonistic atmosphere, of the statement that physical preparation should be made against theoretical physical attack."

"What is so remarkable about Dr. Grayzel's statement is not so much the expression thereof, as the mise en scene in which it was made. We shall probably be treated in the near future with a news release from B'nai B'rith headquarters denying any responsibility for Dr. Grayzel's remarks. For it has been the assumed responsibility of the International Order of B'nai B'rith to take care of all defense measures against anti-Semitism. And none of these have considered any measure effective outside of diplomatic, political or personal contact.

"It is true that within recent years the ADL has finally agreed that some legal processes might be helpful in defense, but we doubt whether it would approve of a mere historian's ideas—that force should be met with force."

(Editor's Note: Italics ours. Although this was published July 15, 1949, we have not yet seen a denial of responsibility from B'nai B'rith headquarters or the Anti-Defamation League and it is our opinion that they NEVER intend to make it!)

Letters To The Editor

Calif.

Dear Sir:

Your November 29th letter was received this morning and I am enclosing Postal Note for \$5.00 as a donation and my only regret is that I am unable at this time to do more and I wish it were possible for me to do 100 times as much.

When I think of the "Intestinal Fortitude" you display and look around me and find so many spineless Pussy Footers, I am inclined to and do use profane language.

The day of reckoning is approaching and it will be such, that thousands of so-called Americans will realize that they have been asleep and too d--lazy to think.

My sincere wish is that you remain well and do not lose faith in yourself and your beliefs.

Later on I hope to do more.

H. A. H.

Dear Mr. McGinley:

Thank you for your letter; I appreciated knowing that what I am trying to do is appreciated. I am only one individual of limited means, but if I had more money and more physical strength I'd use them all for my Country.

I wrote letters during the war that while our sons were sent to the far ends of the earth to fight for Liberty and Freedom—and while making the supreme sacrifice—here at home our Country was being sold out from under our very noses. No one would listen to me. It was unpatriotic! I tried to tell them of the "Roosevelt Myth." Not that I knew facts... but I smelled it!

I have been warned not to write—not to send letters, literature by so-called "good" Americans; not threats—but they are trying to warn me.

My answer to them all is this: When my time comes to die I'd rather die an AMERICAN PATRIOT than a coward and a traitor. So, I'll continue circulating all the literature that I can get. I have gone without things I wanted to get the dollars I am using and I shall continue to do so as long as I am able.

That is my answer! Thank God for the McGinley's... if there were more of them!

—L. P. H., New York

Dear Sir:

Please send me 100 copies of COMMON SENSE, issue November 1, 1949, I am leaving on a business trip to South Indiana and would like to have these before I leave—please send them special delivery.

—W. R. M., Illinois

Editor, COMMON SENSE:

Allow me to thank you for enlightening me on the national activities of the National League of Women Voters. I belonged to this organization and was outspoken in my contempt for the internationalists. Due to COMMON SENSE I have sent in my resignation and informed the president that the league supported un-American programs. I told her my resignation was a loss to Satan and a gain to God and His Country.

I thank COMMON SENSE for its Christian duty to America and to our Constitution.

—V. L. S., Connecticut

Dear friend C. McG:

I thank you and bless you for your letters and parcels of COMMON SENSE, which is greatly valued by seekers of truth. I will send you donation and get others to send you subscriptions for your great work of spreading truth.

All the industrial unrest here—strikes often. Strikes are caused by the Reds and they are plotting for a revolution in England, but I hope that we will in the New Year gather a great power by spreading truth that will turn the people against them. The paper, COMMON SENSE, is the most outspoken paper in the universe against the International Zionist financiers who are the power behind Communism.

I thank you and hope that you will be well protected in this great Fight for Freedom.

Protestant Minister—England.

Dear Mr. McGinley:

Just a hurried line of rejoicing that you have found another printer—please God this one can continue—can't any arm of the law be brought to bear on such as these who are bringing the pressure?

How about the Draper-Adler case in Greenwich, Conn.? To think that such a law could exist or be passed to begin with! It certainly takes a stout heart to keep in the fight...

Our Answer To Communist Persecution

TWENTY-FIVE THOUSAND NEW READERS ... HELP UP TO GET THEM

We have recently made satisfactory printing arrangements with our SEVENTH printer since COMMON SENSE was first published almost four years ago. Our six previous printers have been threatened with boycott, intimidated, coerced to stop printing COMMON SENSE. More than four hundred Communist owned or controlled publications in the United States are not interfered with. Why are our enemies so determined to destroy COMMON SENSE? Why do they ignore our challenge to fight any issue out fair and square in print or in public debate?

WHY? The answer, of course, is because the enemies of America cannot stand the truth; they cannot stand the fearless exposure by COMMON SENSE.

Our Goal is to secure 25,000 new readers. In order to bring the truth to more people, we will make a special offer of \$1.00 for a year's subscription—a wealth of information for the price of a movie. Is it worth \$1.00 a year to be informed on the traitorous activities of the enemies of America months before the regular press dares publish it? Do your part to keep America free. Strike a blow for Christianity and America by securing new readers. It is very late to fight, but not as late as in Hungary, Poland, Czechoslovakia, and many other countries. If there had been such a paper as COMMON SENSE in those countries, backed wisely, the people could have saved themselves. Help build your paper, COMMON SENSE, into a powerful weapon.

Talk will not stop Communist slavery—it takes action, cooperation and money to get results. Communists are not afraid of anyone, and they are working and spending huge sums of money to attain their goal. 35,000 full time workers are busy in the United States working to destroy our freedom, and at least 35 million people in the United States are ready and willing to cooperate in overthrowing our Government. Examine your conscience—what are you doing to preserve the liberty of your loved ones and those dedicated to holy lives. What more can an individual do to preserve America and Christianity than by spreading COMMON SENSE all over the United States? Now, while you still have time to fight, send as many subscriptions as possible.

This Offer Expires January 31, 1950.

nothing short of a miracle can save us now, I feel. Wish I could do more; send a couple of thousand... we need you. May God bless you and your work. You are in every Mass and Divine Office.

Doings In Congress

(Continued from page 1)

their duty to speak up fearlessly when the nation's welfare is at stake. Let us throw up the blinds and let in the white light of publicity on the blunders that were made at Teheran, Yalta and Potsdam, and now at Formosa.

We entrusted the defense of the Pacific to MacArthur and Radford. They are doing a splendid job. Yet the President rejects their advice and follows that of Dean Acheson. Yet General Hurley, former Special Ambassador to China, tells us that it was Dean Acheson who got our sick President to agree to the capitalistic imperialism of Britain and the communistic imperialism of Russia.

I am amazed that there should be executive sessions to conceal the blunders of our Secretary. Surely, what little Acheson knows the public has a right to know.

The public has a right to know that Stalin is fortifying Sakhalin Island, just north of Japan, half of which our former President gave to him. The Public has a right to know that Stalin and his cohorts intend to take all of India by 1952, and now we are about to give him Formosa.

The statement made that a firm stand in regard to Formosa means war is double talk. Great Britain has made a firm statement in regard to Hong Kong. We have not only made a firm statement in regard to Europe but have, and are sending war materials to nations bordering on Russia. Tito, for example.

We are not only sending war materials to South Korea but are training her soldiers. Russia is doing the same to North Korea.

U. S. Naval Intelligence Report, 1935

"A major problem is not only the Communist with his philosophy of hatred, destruction, and revolt; but individuals, supposedly intelligent, occupying positions above the average in life, whose names and works carry with them a certain prestige and who, although themselves not subscribing to the Communist program, philosophy, and doctrines, pick certain sections of the Communist program to promote, uphold and expand. These are the "fringe revolutionists" too lacking in intestinal fortitude to go all the way with Communism, but who stand by and urge the Communist to do his worst, and provide him with protection, sympathy, and defense while he commits the overt act they have not had the courage to commit themselves."

COURAGE is the ability to bear up under sacrifice and punishment in order to be able to render service for good.

HATE! There is something stronger than hate. That is the love which enables us to dare anything to preserve our unalienable rights, our freedom to worship God in our own way and protect our American citizenship.
